3D NURSERY QUILT

Courtesy of Springs Creative

SUPPLIES:

- 1 Coordinating Quilt Top Panel for front
- 1 yd. Coordinating fabric for back
- 1 1/2 yd. Patches for ruffle
- 1 yard high-loft polyester batting

DIRECTIONS:

Note: Read all instructions carefully before beginning project. Use 1/2" seam allowances.

1. Cut backing fabric and batting to match size of quilt top (approx. 36" x 44").
2. Using a dessert plate or large can, trace curved edges on all corners. Cut along traced lines to form curved corners.
3. Layer batting on back of quilt top; baste raw edges together.
4. For quilt ruffle, cut seven 38 1/2" strips, two squares wide (approx. 6").
5. Stitch short ends of ruffle strips, RIGHT sides together, to create a continuous loop.
6. Fold ruffle in half lengthwise, WRONG sides together, along patchwork seam. Create 1/2" deep pleats, spaced 1 1/2" apart.
7. Pin raw edges of pleated ruffle to edges of quilt front, RIGHT sides together. Adjust pleats as necessary to fit ruffle around quilt front. Baste ruffle in place.
8. Place quilt back on quilt top, RIGHT sides together. Machine-stitch together, leaving a 10" opening along bottom edge.
9. Clip corners and turn quilt right side out. Slipstitch opening closed.
10. Smooth layers straight and machine-quilt through all layers along seamlines on quilt top.
11. Quilt as desired.
