## Spring Bulletin Board

Courtesy of Springs Creative

### SUPPLIES NEEDED:

- (1) 16"x20" painter's canvas, already stretched
- Scraps of fabric and trims
- Large silk Daisy's or other embellishments of your choice
- Fabric Glue or hot glue and glue gun
- Scissors or rotary cutter
- Felt for letters or preformed foam letters

### Instructions: (read before starting project)

1. Begin by cutting and arranging the fabric on the front of your bulletin board as you would like. Make sure to allow enough fabric and trim to wrap around the sides and to the back nicely. Trim corners if necessary to make neat folds and generously glue fabric into place.
2. Follow the same procedure with your trims and embellishments when or where necessary. Finish off your project by applying felt or foam letters to your message board and hang it where ever makes you happy!
